Description

Google Recruitment 2023

WebXT is looking for a Design Engineer to help build our next-generation web platform. As a Design Engineer, you will work with a team of engineers to design and implement the architecture and features of our platform. This is a highly technical position requiring expertise in web development, distributed systems, and big data. If you are excited about building large-scale web applications and have a passion for learning new technologies, we want you!

Jobs Near Me

Qualifications:-

- BS or MS in Computer Science or related field
- 3+ years of experience in web development
- Strong experience in Java, JavaScript, and HTML5
- Experience with distributed systems and big data technologies a plus
